

## Attachment J. Species and Communities with Special Status Table

Project Name: Lehman Uplands, Project #16-1699

Applicant Name: Methow Conservancy

Date: May 2016

Check one:      ☒ Critical Habitat      ☐ Natural Areas      ☐ Urban Wildlife Habitat

Species, Community, or Habitat Type	Occurrence*	Status (Federal, State)	Source
Western toad	Year-round resident (possible upland wintering and non-breeding use based on presence of suitable pond adjacent to project site)	none, SC	WDFW
Burrowing owl	Historically present. Potential for breeding in future.	none, SC	WDFW
Great blue heron	Feeding	none, SP2	WDFW
Bald eagle	Feeding, wintering	FSC, SS	USFWS, WDFW
Golden eagle	Year-round, feeding; nest site within 1/4 mile of project site (WDFW PHS Data)	none, SC	WDFW
Peregrine falcon	Feeding, migration.	FSC, SS	USFWS, WDFW
Prairie falcon	Feeding, migration; nest site within 1.5 miles of project site	none, SM	WDFW
Dusky grouse	Breeding, feeding	none, SP3	WDFW
Sharp-tailed grouse	Historic lek; possible disperser currently; future recovery area	FSC, ST	USFWS, WDFW
Vaux's swift	Likely feeding and possibly breeding.	none, SC	WDFW
Loggerhead shrike	Migration	none, SC	WDFW

### Species and Communities with Special Status Table (continued)

Species, Community, or Habitat Type	Occurrence*	Status (Federal, State)	Source
Western bluebird	Feeding, perching, possible breeding	none, SM	WDFW
Gray wolf	Unknown, but expected	FE, SE	USFWS, WDFW
Moose	Feeding	none, SP3	WDFW
Mule deer	Year-round resident (WDFW PHS Online Web Data indicates project site is a "regular concentration area")	none, SP3	WDFW
Townsend's big-eared bat	Feeding	FSC, SC	USFWS, WDFW
<i>Myotis</i> sp.	Feeding	none, SM	WDFW
Freshwater wetlands	N/A	PH	WDFW PHS Online Web Data
Riparian	N/A	PH	WDFW PHS designation
Shrub-steppe	N/A	PH	WDFW PHS designation

\* Occurrence is for the worksite/project site. Note that the worksite area and project area are identical.
